

Maritime Subsea

From **autonomous underwater vehicles** to **fixed infrastructure**, subsea applications require robust, mission-ready connectivity.

Amphenol Military and Aerospace offers a broad portfolio designed to meet those needs.

Amphenol Aerospace

Aquacon

Pressure-sealed for underwater connectivity

Amphenol Aerospace

EMI Filters

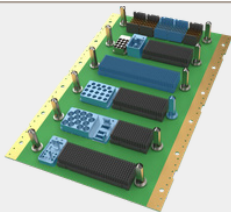

Power and signal conditioning

Amphenol Aerospace

Hermetic Connectors

Leak-proof connector solutions

Amphenol Aerospace & SV Micro

VITA & SOSA Solutions

Open.Tech

Open architecture design tool

Amphenol Canada

Micro-D Hermetics

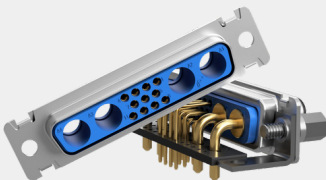

Compact high-density connectivity

Nexus

RANGER Seal

Sealed connectivity with IP68/IP69K protection, 3000 hour salt spray

Positronic

D-Sub

Standard, High, Combo-D

Flexible power and signal connectivity

Positronic

IP67 Waterproof D-Sub

Sealed D-Subs that protect against water and dust ingress

Positronic

Scorpion

Configurable power and signal layouts
