

FERRULES

WIRE END FERRULES - MADE IN GERMANY

**FERRULES DIRECTLY
FROM OUR
DISTRIBUTORS
IN USA**

For industrial needs, we provide ferrules directly from our distributors in USA.

Our portfolio features ferrules in 300 standard sizes, shapes and colours with cross-sections from 0.08 mm² to 240 mm².

We are also able to provide ferrules with custom dimensions according to your specifications or even plastic parts such as insulating collars based on drawings.

INSULATED SINGLE AND TWIN FERRULES

- Colour ranges 1, 2 and DIN
- Dimensional tolerances according to DIN 46228-4
- Polypropylene entry funnel
- Heat resistant up to 105°C
- Material: ECU
- Electro-tinned surface Minimum thickness of layer 3 µm
- Customized Packaging

INSULATED FERRULES IN STRIPS AND ON REELS

- Specifications as single ferrules; plus:
- Strips in sizes of 500 ferrules (pack 10x500)
- Small reels in sizes of 500-1,100
- Crimpstar reels in sizes of 2,500-4,000
- Medium reels in sizes of 5,000-10,000

FERRULES FOR SHORT-CIRCUIT-PROOF AND GROUND-FAULT-PROOF CABLING

- Specifications as single ferrules; plus:
- Insulating collar for short-circuit-proof and ground-fault-proof cabling up to 3 kV
- Customized Packaging

UNINSULATED FERRULES

- Dimensional tolerances according to DIN 46228-1
- Material: ECU
- Electro-tinned surface Minimum thickness of layer 3 µm
- Packaged in batch sizes of 25 to 1000

eFERRULES IN ASSORTMENT BOXES

- Assortments of insulated and uninsulated ferrules in
- high quality dispenser boxes
- Can bottoms also available in colored versions

TOOLS

- Tools to use with ferrules
- Ergonomic stripping and crimping tools for solid and flexible conductors
- Different crimping needs: Trapezoidal or square crimping
