Strain Relief

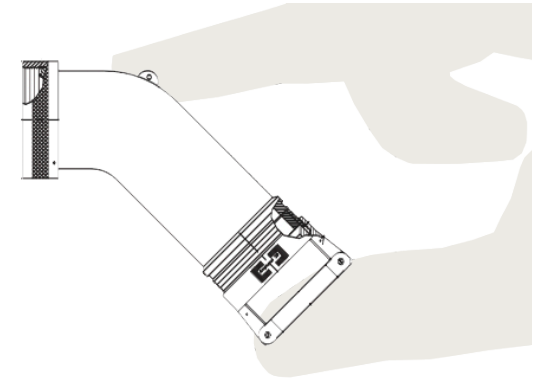

Efficient, Simple and Dependable

Our goal is to offer the most user-friendly interface solution for “out of the box” thinking. Amphenol PCD custom backshells provide creative solutions when the off the shelf offerings do not meet your demanding application’s requirements.

Amphenol Pcd offers a wide range of custom backshells for virtually any circular connector.

Base material: Aluminum Alloy, Stainless Steel, Brass, and Composite

Finishes: Anodized Black, Black Zinc Nickel, Cadmium, Electroless Nickel, Nickel Teflon, Passivation, Zinc Cobalt Olive drab, Zinc Cobalt Black

What we need to know...

Custom Solutions

Answers to question 1-5.

Cross Opportunity

Competitive data sheet or answers to question 1-5.

1. What is the connector part number?
2. What is the cable diameter?
3. What is the profile?
4. Are you using braided or shielded cable?
5. Do you need environment protection?

Custom backshells meet or exceed M85049 Performance Requirements
