

LINE CARD

Flow, Level, & Valves

DwyerOmega's comprehensive catalog of high-quality flow, level, and valve sensing solutions deliver exceptional performance and accuracy. Our innovative process media measurement and control products are essential to various diverse industrial, commercial, and laboratory applications - ensuring optimal operational efficiency and reliable management in the most demanding of environments.

Flow

Flow Meters and Sensors

Paddlewheel Flow Meters

Counter and Rate Meters

Electromagnetic Flow Meters

Mass Flow Meters

Ultrasonic Flow Meters

Variable Area Flow Meters

Vortex Flow Meters

Positive Displacement Flow Meters

Turbine Flow Meters

Pitot Tubes

Indicating Flow Meters

Flow Switches

Flow Measurement Accessories

Tubes

Pipe and Tube Fittings

Installation Fittings

Level

Level Transmitters and Leak Detectors

Submersible Level Transmitters

Water Leak Detectors

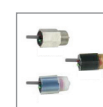

Level Controllers and Indicators

Conductivity Level Controllers and Switches

Capacitance Level Switches

Submersible Optical Switches

Vertical Mount Liquid Level Switches

Tuning Fork Level Switches

Side Mount Level Switches

Float Switches and Sensors

Ultrasonic Level Controllers and Switches

Ultrasonic Sensor

Pulse Radar Sensors

Pump Controllers

Capacitance Sensor

Guided Wave Radar Sensor

Drum Level Indicators and Controllers

Dry Material Paddle Switches

Valves

Drain Valves

Lookout Safety Valves

Needle Valves

Angle Body Piston Valves

Ball Valves

Solenoid Valves

Proportional Valves

Block Valves

Butterfly Valves

Temperature Control Valves

Hi-Flow Valves
